The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue. These shapes are primarily located on the left and right sides of the frame, creating a modern, dynamic feel. The central area is a plain white background where the text is placed.

Capstone Project

The battle of Neighborhoods

Find the best place to open a restaurant in Milan

Introduction

- ▶ Milan continuously built-up urban area is the fourth largest in the EU with 5.27 million inhabitants
- ▶ Great competition to open a restaurant
- ▶ Help a possible stakeholder to understand better the town and the market with useful insights

Data Section

- ▶ Wikipedia page about Milan:

https://it.wikipedia.org/wiki/Municipi_di_Milano

- ▶ List of neighborhoods:

https://github.com/NicMil/Coursera_Capstone/blob/master/Milano_Municipi_NIL.csv

- ▶ Real Estate prices:

Data Section

	Id	Neighborhood	Borough	Population(31/12/2018) Borough	Average Price(€/sm)	Latitude	Longitude
0	48	Ronchetto Sul Naviglio - Q.Re Lodovico Il Moro	6	151 291	€ 2.563 /m ²	45.438460	9.137260
1	64	Trenno	8	188 367	€ 2.350 /m ²	45.492822	9.101675
2	67	Portello	8	188 367	€ 4.300 /m ²	45.484490	9.153947
3	81	Bovisasca	9	187 773	€ 2.000 /m ²	45.517433	9.156731
4	84	Parco Nord	9	187 773	€ 6.800 /m ²	45.523514	9.184235

Methodology

Folium map

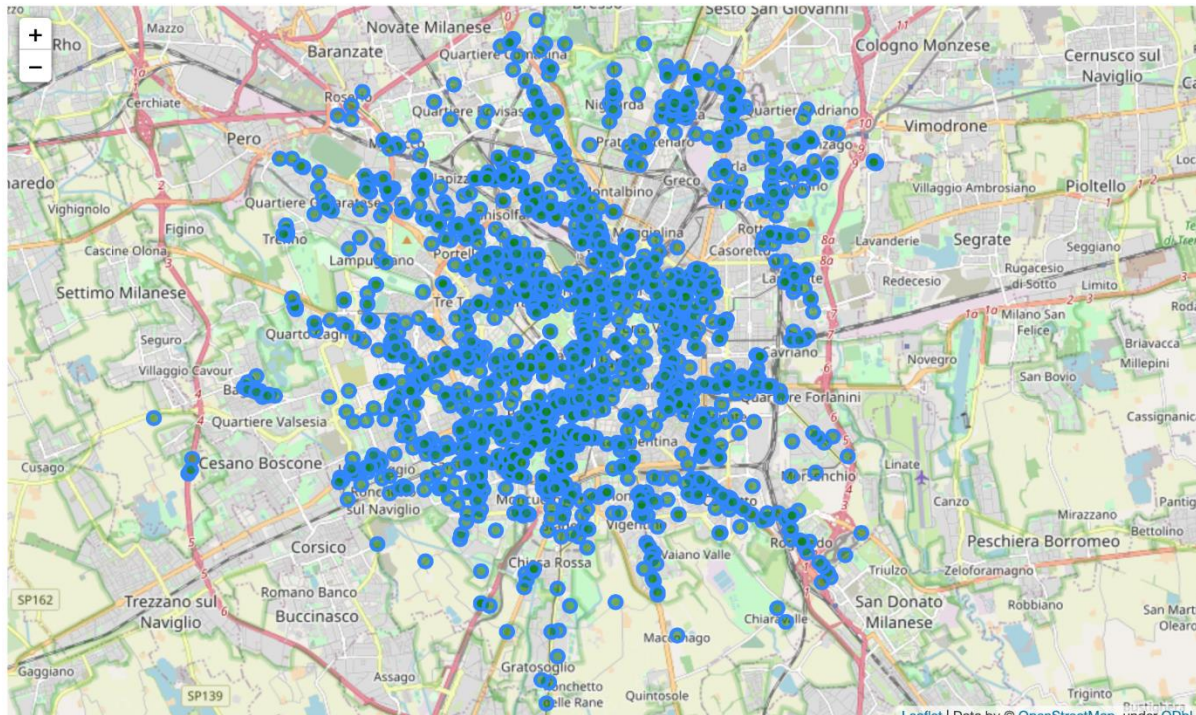

GeoJSON map

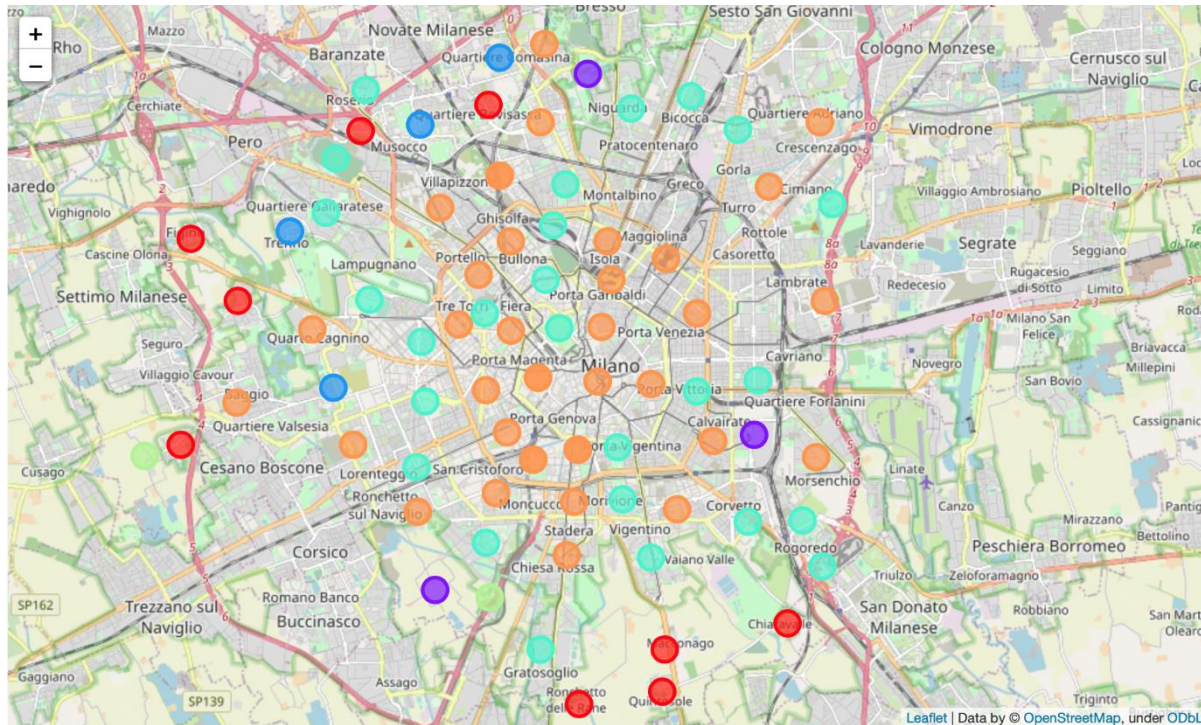

Methodology

► Milan restaurants:

Methodology

► Clustering:

Conclusion

- ▶ The most common venues in Milan are Italian Restaurant and Pizza Place
- ▶ Cluster 3 (blue) and 5 (green) don't have an Italian Restaurant
- ▶ From the geographical representation of the clusters, Comasina and Quarto Oggiaro, seems a good place open an Italian Restaurant. Also the land price isn't too high
- ▶ If our stakeholder thinks that there are too much Italian Restaurant, It can also be suggested that Assiano (cluster 5) could be a great area to open a Vegan\Vegetarian restaurant because of low profile and land price

Next steps

- ▶ Use a different Venue API with more data. Unfortunately foursquare isn't pretty famous in Italy where most users prefer Google Maps or Facebook
- ▶ Find and use updated demographics data about Milan's Neighborhood
- ▶ Try a Neighborhood-Based Clustering
